Sorry, I'm not leaving my house for tonight's meeting. IF by any chance you meet I have a few things I would like to say:

To the Planning Commission for Douglass Township,

I lived in big cities most of my life. But after living here for 12 years I've grown to appreciate the beauty of the land and lakes this township offers. Thank you for recommending strong solar and wind ordinance language. I am concerned that they will be passed and followed; no variances, no special land use permits, no exceptions. Enforcement of township ordinances is already an issue, so we must get this right. I know we can. Thanks again for your brains and heart.

Sincerely, Caryl Hackett
